# A Message from College de Grand Bourg

## Grand Bourg Middle school Team

The Grand Bourg Middle School is a public secondary school located on a small island called Marie Galante ( French West Indies.)

The school has a population of 320 pupils, ages range from 11 to 16. There are also 30 teachers who work there.

The students of Grand Bourg come from lower socio-economic backgrounds. Our program is designed to provide the students with an opportunity to get exposure to various "life skills". It is expected that the experience will prepare them for a better future. In order to be a productive citizen in the current environment, it seems necessary that our young people receive this type of training.

We have a project entitled "Life Skills" that involves 43 students, which are divided into two classes. It will give the students an opportunity to achieve several goals by:

- improving their English language skills.
- becoming more independent.
- boosting their motivation and self-esteem by working in a team environment.

This project will create an interactive pedagogy based on experience and new technologies.

### The adults who are a part of the project are:

Mr. Claude: Headmaster of the school

Mr. Jacqueline: Educational Advisor

### 7 teachers:

Mme Aurorque-Jovial: French teacher

Mme Raguel: French and Latin teacher

Mme Desbois: English teacher

Mme Pelage: Biology teacher

Mme Martz: Math teacher

Mr. Brissiaud: Technology: a topic that teaches project management. This skill is used in the world of Business and Communication.

Mme Labau Toto-Boc Ketty: Physical Education teacher.

Mr. Prigent: Spanish teacher

### **Address:**

Collège de Grand Bourg  
Rue du Presbytère  
97112 Grand-Bourg

# METHODS FOR TEACHERS/ TRAINERS/YOUTHS

Based on the idea of innovation and entrepreneurship, students who are having a hard time in school, we are currently developing materials that will help teachers and trainers to give students the competences that they need in real life and in school.

Below is an info graphic showing an overview of how and why we are doing this.
